

Demo for ASP.NET Practical

Overview

Login > Password > Start Queues: It will start from the first question, then it will display a 'Next' and 'Skip' button. After clicking the 'Next' button, it will be mandatory to answer the question, while clicking the 'Skip' button will allow the user to move on to the next question without answering. Clicking either the 'Next' or 'Skip' button will display the next question on the same screen. This process will continue until the last question has been reached. After all questions have been attempted, the result will be generated and displayed on the next screen.

Please see the demo snapshots below for a better understanding.

1

A screenshot of a sign-in form on a dark blue background. At the top, the text "Sign in to start your session" is displayed in white. Below this, there are two white input fields. The first field is labeled "Username" and has a white envelope icon on its right side. The second field is labeled "Password" and has a white padlock icon on its right side. Below these fields is a blue button with the text "Sign up" in white.
